Dear Mr. Warner:

Re: Plan of Conservation and Development

Thank you for referring the above referenced matter to the Midstate Regional Planning Agency for review. The Agency considered this matter at its September 2, 2008 meeting and voted to notify you that the proposed land use plan for the Plan of Conservation and Development is not in conflict with the land use policies in the abutting Midstate municipalities.

Please feel free to contact me should you have any questions on this matter.

Very truly yours,

Geoffrey L. Colegrove
Executive Director
