NOTE 1: The numbers by American Indian and Alaska Native tribal grouping do not add to the total population. This is because the American Indian and Alaska Native tribal groupings are tallies of the number of American Indian and Alaska Native *responses* rather than the number of American Indian and Alaska Native *respondents*. Responses that include more than one race and/or American Indian and Alaska Native tribal grouping are counted several times. For example, a respondent reporting "Apache, Blackfeet, **and** White" would be included in the Apache as well as Blackfeet numbers. "Not specified" includes respondents who checked the American Indian or Alaska Native response category on the census questionnaire and did not write in a specific group or wrote in a generic term such as "American Indian" or "Alaska Indian."
