

# STATE AND FEDERAL LISTED SPECIES AND SIGNIFICANT NATURAL COMMUNITIES

## MIDDLETOWN, CT

### LEGEND

-  NDDB Area of Concern \*
-  State Boundary
-  County Boundary
-  Town Boundary
-  Railroads
-  Primary Route
-  Secondary Route
-  Local Road
-  Water, Shore
-  Intermittent Water
-  Dam
-  Dredged Channel
-  Aqueduct
-  Water
-  Intermittent Water
-  Tidal, Sand Flats
-  Rocks in Water
-  Inundated Area
-  Marsh
-  Dam

### TO USE MAP

Locate project boundaries and any additional affected areas on the map. If the project is not within a shaded area; or overlapping a lake, pond or wetland that has any shading; or upstream or downstream (by less than 1/2 mile) from a shaded area, the project is unlikely to affect any known occurrence of listed species or significant natural community. If any part of the project is within a shaded area; or overlapping a lake, pond, or wetland that has any shading; or upstream or downstream (by less than 1/2 mile) from a shaded area, then the project may have a potential conflict with a species or natural community. Complete a Data Base Request Form and submit to the Natural Diversity Data Base along with a project description and a copy of a map clearly showing the project boundaries.

### DATA SOURCES

**BASE MAP INFORMATION** - Political boundaries, railroads, and hydrography originally derived from 1:24,000 scale 7.5 Minute U.S. Geological Survey Digital Line Graphs and enhanced by the Connecticut Department of Environmental Protection. The data is based on 1:24,000 scale Topographic Quadrangle maps published between 1969 and 1984. The roads and road names are based on the Connecticut Street Network State Plane, TIGER Line 2000 database a statewide database of address-ranged street segments compiled from the Census 2000 TIGER Line files by the University of Connecticut Center for Geographic Information and Analysis. Annotation derived in part from U.S. Geological Survey Geographic Names Information System and information on file at the Connecticut Department of Environmental Protection. The base map data may be neither current nor complete.

**\* NDDB INFORMATION** - Locations of species and natural communities are based on data collected by the CT Department of Environmental Protection, private conservation groups and the scientific community and compiled by the Natural Diversity Data Base. The information is not necessarily the result of comprehensive or site-specific field investigations; in some cases locations have been derived from literature or museum searches or historic records. Exact locations have been buffered to produce generalized locations. The exact species or community location falls somewhere within the shaded area and not necessarily in the center. Information on this map does not include Natural Area Preserves, designated wetland areas or wildlife concentration areas.

Date of Map: December 2005.
